

ENZO GUICHARD

Mechanical Engineering student — Arts et Métiers + Georgia Tech M.S. (double degree)

Seeking a **6-month internship from January 2027**

✉ enzo.guichard@ensam.eu

📍 Metz, France

EDUCATION

Georgia Institute of Technology — Top 3 M.S in Mechanical Engineering in the U.S

Mechanical Engineering — Metz, France

• **Major:** Machine Learning Foundations for Mechanical Engineering, Fundamentals of Fracture Mechanics, Acoustic Transducers and Signal Analysis

AUG 2026

– DEC 2026

• **Minor:** Mathematical Methods of Applied Sciences

Arts et Métiers Institute of Technology (ENSAM) — Top 10 Engineering School in France

M.Eng. in Mechanical Engineering (ranked 211/1,150) — Bordeaux, France

GPA = 3.72

SEPT 2024

– PRESENT

• **Major:** Mechanical & Structural Engineering — **Minor:** Computational Methods

• Coursework: FEA (Abaqus), Fluid Dynamics, Thermodynamics, Materials Science, CAD/CAM, Control Systems

Lycée Gustave Eiffel — CPGE, Physics & Technology (PT)

Ranked 1st/47 — Two-year intensive programme in mathematics, physics and engineering.

SEP 2022

– JUL 2024

SELECTED PROJECTS

Electric Kart Development Project — AMRT Bordeaux

President & Team Leader — 5-student team

OCT 2025

– Led technical coordination and sponsorship for a **72 V / 5 kW electric kart**; managed a **EUR 1,350 budget** and contributed to workshop assembly.

– JUL 2026

– Contributed to **battery enclosure and motor mount design**, controller integration and race-day energy management using live controller data.

– **Prix Peyroux 2026:** awarded for our school's most technically and scientifically outstanding project of the year (**EUR 2,500 team award**).

– **2026 ENEDIS EV Challenge**, an inter-engineering-school competition: **2nd in our qualifying group** and **7th in the two-hour endurance event**.

International Academic Seminar on Surfboard Eco-design — BEST

President, BEST Bordeaux — 35 members, 8-person executive board

MAY 2025

– Organised a week-long course for **20 European students**; coordinated faculty, sponsors and logistics, with a **EUR 6,000+ budget** and four organising departments.

– JUN 2026

Energy Recovery from Exhaust Gases — MGU-H in Formula 1

Individual Research Project — Preparatory Programme Capstone

SEP 2022

– Modelled a turbocharger in **SolidWorks**, simulated with **Python/Flow Simulation**, and built a **3D-printed prototype and Arduino test bench**; studied output under varying loads.

– JUN 2024

PROFESSIONAL & LEADERSHIP EXPERIENCE

Manufacturing Intern — GRYP 3D (Bordeaux, France)

– Performed **3D scanning, CAD reverse engineering and DFM/DFA** for automotive parts; post-processed resin, FDM and carbon-reinforced prints.

JUN 2025

– JUL 2025

– Maintained printers; tested a laser module and wrote **technical operating documentation**.

Business Manager — AMJE Junior Enterprise (Bordeaux, France)

– Managed **client relations and business development**; scoped engineering missions, drafted technical proposals, negotiated contracts and coordinated consultants and deliverables.

DEC 2024

– JUN 2026

SKILLS

• **Languages:** French (native), English (**TOEIC 885/990**), Spanish (B1).

• **Software:** CATIA/3DEXPERIENCE, SolidWorks, Fusion 360, Abaqus, MATLAB, SolidWorks Flow Simulation.

• **Programming:** Python (NumPy, SciPy, Matplotlib); SQL basics; Arduino. Introductory STM32, ROS 2 and computer vision through a BEST autonomous-vehicles course at the University of Messina.

• **Engineering:** CAD/CAM, FEA, DFM/DFA, functional dimensioning, DOE (coursework), additive manufacturing, prototyping, 3D scanning, reverse engineering and electric powertrain integration.

INTERESTS & EXTRACURRICULARS

• **Sports:** Triathlon, running, swimming, skiing, surfing, hiking and padel; former youth motocross competitor.

• **Mechanics:** Two motorcycle conversions: **café racer** and **supermoto** — mechanical modification and assembly.
