

ENZO GUICHARD

Mechanical Engineering student - Arts et Métiers + Georgia Tech (double degree)

Product Design Engineer Intern (Mechanical) - Apple Shenzhen

Available January–June 2027

enzo.guichard@ensam.eu | +33 762 137 330 | linkedin.com/in/enzo-guichard | Metz, France

EDUCATION

Georgia Institute of Technology — Georgia Tech Europe, Metz

Master of Science (M.S.), Mechanical Engineering — Expected graduation: **December 2027**

- **Current coursework:** Fracture Mechanics (failure analysis), Acoustic Transducers and Signal Analysis, Machine Learning for Mechanical Engineering, Applied Mathematics AUG 2026
– PRESENT

Arts et Métiers Institute of Technology (ENSAM)

Engineering degree (in progress) (ranked 211/1,150) — Bordeaux, France

- **Coursework:** Mechanical Design, Materials Science, Finite Element Analysis (Abaqus), CAD/CAM, Thermodynamics, Control Systems SEPT 2024
– PRESENT

Lycée Gustave Eiffel — CPGE, Physics & Technology

Ranked 1st out of 47 - Intensive preparation in mathematics, physics and mechanical engineering. SEPT 2022
– JUL 2024

SELECTED ENGINEERING PROJECTS

Electric Kart - Battery Pack & Mechanical Design

Engineering Project — Team Leader, 12-person team

- Led a **12-student team**, coordinating technical decisions, project planning and sponsors. SEPT 2025
– PRESENT
- Contributed to **battery pack and mechanical enclosure design**: cell selection, **battery management system (BMS)** architecture, motor and controller sizing; CAD and Python simulation.
- Coordinated **chassis manufacturing and sensor integration**, including telemetry.

Energy Recovery from Exhaust Gases — MGU-H in Formula 1

Solo Research Project — Preparatory Program Capstone

- Built **SolidWorks CAD models** and ran **Python / Flow Simulation** analyses of turbocharger power losses and energy recovery efficiency. SEPT 2022
– JUN 2024
- Built a **3D-printed prototype and Arduino test bench** for experimental testing and analysis.

PROFESSIONAL & LEADERSHIP EXPERIENCE

Engineering Intern — GRYP 3D (Bordeaux, France)

- Applied **Design for Manufacturability (DFM) and Design for Assembly (DFA)** to automotive parts; performed 3D scanning, CAD reverse engineering and post-processing. JUN 2025
– JUL 2025
- Maintained manufacturing equipment and wrote **technical documentation** for laser integration.

Business Manager — AMJE Junior Enterprise (Bordeaux, France)

- Managed **client relationships**, drafted **technical proposals** and coordinated contributors and follow-up for engineering and consulting projects. OCT 2024
– PRESENT

International Academic Seminar on Additive Manufacturing — BEST

President, BEST Arts et Métiers — 40-member association

- Organized an **additive manufacturing seminar for 20 international students**; coordinated faculty and sponsors, and managed a **EUR 7,000+ budget**. NOV 2024
– JUN 2025

TECHNICAL SKILLS & LANGUAGES

- **Mechanical Design & CAD:** SolidWorks, CATIA/3DEXPERIENCE, Fusion 360; battery packs, mechanical enclosures, prototyping and additive manufacturing
- **Design Methods:** DFM/DFA (coursework and internship); functional dimensioning and Design of Experiments (DOE) (coursework)
- **Analysis & Testing:** Finite Element Analysis (FEA) fundamentals, Abaqus (academic); SolidWorks Flow Simulation, MATLAB, Arduino test benches and sensor integration
- **Programming:** Python (NumPy, SciPy, Matplotlib) for numerical simulation and data analysis; SQL basics
- **Languages:** French (native), English (**TOEIC 885/990**), Spanish (B1)

INTERESTS & EXTRACURRICULARS

- **Sports:** Triathlon, Surf, Ski (18 years), **Motocross** (5 years competition)
- **Mechanics:** Modified two motorcycles into a **Café Racer** (touring base) and a **Supermoto** (motocross base).
